A. INTRODUCTION

The Town of Buchanan, Outagamie County, Wisconsin is soliciting Statements of Qualifications from engineering consulting firms for professional services related to the design and engineering of town roads and bridges and miscellaneous highway structures and appurtenances, along with review services for drainage, stormwater and erosion control.

Engineering firms shall be required to provide:

- Design Development Phase Services
- Construction Document Phase Services
- Bid Phase Services
- Plan Review Services

Services under this contract shall include, but not be limited to:

- Design and Engineering of Town Roads
- Bridge Design and Engineering
- Drainage Ditch and Storm Water Design and Engineering
- All Necessary Reports
- Utility Coordination
- Right of Way and Easement Acquisition
- Public Involvement
- Speed Limit Analysis
- Preparation of Construction Plans and Specifications
- Consulting Services on an Emergency Basis (i.e., bridge failure)
- Plan Review of Stowater and Erosion Control Plans
- Review and Report on Drainage Matters
- Other similar duties that may be determined by the Twin

The design and construction phases of the projects under this contract shall be funded entirely by the Town of Buchanan; therefore, only review and approval by the Town of Buchanan will be required.

It is the intent of the Town to contract with a single qualified firm (or team) possessing a high level of technical competence in the design and engineering disciplines to provide the services outlined in this RFQ, however, the Town reserves the right to split the services to multiple firms if it determined to be in the best interest of the Town.

This RFQ is not an invitation to Bid. Responses will be evaluated on the basis of the relative merits of the firm through a Qualifications Based Selection (QBS) process.

Engineering firms having considerable experience in the planning and design for reconstruction and rehabilitation of county roads and bridges and other closely related projects are encouraged to participate.

The Town reserves the right to reject all firms, decline to proceed with the selection of any

candidates, to request additional information and to make inquiries as may be necessary to verify qualifications. Nothing in this document shall require the Town to proceed with any professional services.

The Town of Buchanan reserves the right to cancel any agreement that may result from this RFQ with no penalty if the Buchanan Town Board fails to appropriate funds for future projects.

B. STATEMENT OF QUALIFICATION SUBMISSION

Statements of Qualifications are due by Monday, May 28, 2018 at 10:00 a.m. local time. Respondents are responsible for meeting this deadline. Any submittals received after the deadline will be rejected.

Interested firms shall submit four (4) copies of their Statements of Qualifications and an electronic copy to:

Anthony Brown, Town Administrator
Town of Buchanan
N178 County Road N
Appleton, WI 54915

Qualifications must be enclosed in a sealed envelope (or other sealed container); the package must be marked “Statement of Qualifications – Town of Buchanan Design and Engineering Services” and the respondent’s name.

Submittals should be prepared in 3 ring binders, 8-1/2” x 11” format with project and firm identification on the cover.

C. INQUIRIES AND ADDENDA

Any questions or concerns regarding this RFQ shall be directed in writing to:

Anthony Brown, Town Administrator N178 County Road N
Appleton, WI 54915
Phone: (920)734-8599
E-Mail tonyb@townofbuchanan.org

Questions must be received no later than Monday, May 14, 2018 at 10:00 a.m. local time.

Any response to questions, or changes in this RFQ, shall be issued in writing as an addendum. Respondents must acknowledge addenda received as part of their submissions.

Verbal and other interpretations or clarification will be without legal effect.

D. BACKGROUND

The Town of Buchanan is located in Outagamie County in Northeastern Wisconsin and encompasses an area of approximately 16.9 square miles.

The Town of Buchanan 2018-2022 Capital Improvement Plan (CIP) is available on the Town website. Examples of future engineering projects under this contract may include total reconstruction of concrete and asphalt roadways, milling, reshaping, compacting, overlay, removal of base and re-grading of ditches, storm sewers, culverts, curbing, and excavation below subgrade, design and engineering of bridges, bridge construction and rehabilitation, etc. The Town has had an average capital improvement program of approximately \$1,750,000 annually and recently approved a referendum that has raised the Town's expenditure cap by \$350,000 annually to more adequately cover road improvement costs.

Currently, 15% of the roads in Town or approximately 6.9 total miles are rated at or below a four (4) on the PASER system. The short term goal of the Town is to improve those road segments rated 4 or below with a long term goal of maintaining an average annual PASER rating above this throughout the Town road system.

The Town maintains approximately 150 miles of open ditches and wishes to maintain an active policy to improve its surface drainage systems throughout the Town, preferably in conjunction with adjacent road improvement projects.

E. SCOPE OF SERVICES

The selected firm shall be required to work in conjunction with the Town. Firms interested in providing services for this project must provide Statements of Qualifications in accordance with this request.

The selected firm shall provide disciplines related to design and engineering of roads and bridges, including but not limited to structural, surveys, soil/material testing, land acquisition, construction staking, utility coordination, etc.

The selected firm shall follow all regulations as set by the State of Wisconsin, Department of Transportation, Standard Specifications for Highway and Structure Construction.

Interested engineering firms must be included on the current Wisconsin Department of Transportation's Roster of Eligible Engineering Consultants. In addition, the description of services offered on the roster must include the services required to complete the proposed project with the exception of work in specialized areas, which may be conducted by sub-consultants selected by the successful engineering firm.

Selected firm shall have a minimum of five (5) years of verifiable experience and must be familiar, capable and have a clear understanding of the required services stated herein.

Design and engineering services shall be completed no later than January 31st of the scheduled construction year. For example, design and engineering services for roadwork projects scheduled

for 2019 shall be completed no later than January 31, 2019.

Exact projects to be completed each year cannot be guaranteed. The Town of Buchanan shall reserve the right to schedule and move projects from one year to another in order to meet requirements and to serve the best interest of the Town of Buchanan during the contract period. In order to meet the Town's needs and requirements, the selected firm shall allow for flexibility of when projects are to be designed for construction.

Unforeseen projects may arise that may require design and engineering services covered under this contract. In the case of an unforeseen project, the Town shall provide a reasonable amount of time for the design and engineering services to be completed and shall be agreeable to both parties.

The selected firm shall be capable and responsible for the following scope of services:

Design and Engineering of Town Roads and Bridges

1. Design

Before beginning this phase, the firm will confer with the Town to identify and resolve any issues related to the project. Prepare designs, including drawings and other documents, illustrating the scale and general relationships of the project components. All major features, materials and components of the design should be documented along with a preliminary estimate of construction costs. The firm will meet regularly with the Town during the design phase, to ensure conformance to the objectives of the project. Provide proven alternative, cost-saving construction methods.

Along with leading regular progress meetings, the firm may be required to make one (1) or more presentations to the Buchanan Town Board to present the design, anticipated costs and schedule. The presentation documents should include a preliminary design plan of the project.

Selected firm will coordinate and conduct at least one (1) public information meeting for each project.

2. Construction Documents

This phase of services will move the project design to 100% completion. Deliverables will include a complete set of plans and bid document specifications suitable for a public construction letting by the Town, along with a detailed construction cost estimate. Definitive plans and bid documents shall demonstrate the specifications necessary to produce the desired design, engineering and other systems appropriate to the project, adhering to the Town's agreed upon concept that comply with all applicable codes and regulations.

All plans, bid documents, calculations, estimates and other information developed in conjunction with this task shall be furnished to the Town in reproducible digital format and shall become the property of the Town.

3. Professional Standards

Render services in accordance with Wisconsin Department of Transportation regulations and all federal, state, and county requirements.

4. Construction Procurement

The Town shall solicit bids or proposals from general contractors, awarding the construction contract to the responsive, responsible, lowest cost bidder. During this phase, the selected firm shall:

- Produce and distribute plans and specifications in coordination with the Town
- Respond to bidders' inquiries
- Assist in bid evaluation process
- Arrange and host a pre-bid conference and site tour with potential bidders to explain project details
- Prepare and issue addendums to bids
- Attend bid openings and participate in the review and evaluation of bids
- Make recommendation of award to the Town Board
- As necessary and upon the request of town staff, attend town committee meetings and to be available for any questions regarding the award of the contract.
- Other similar design and engineering associated services

5. Construction.

During the construction phase, the selected firm will be required to provide inspections and construction administration services. At the request of the Town, the selected firm shall meet with Town's representatives on construction status. Perform inspections during and after construction completion to insure the project meets standards and specifications.

6. Project Close-Out Documentation

Selected firm shall ensure all close-out documents are collected, organized and turned over to the Town upon completion and acceptance of project.

G. STATEMENT OF QUALIFICATION CONTENT AND FORMAT

In order for the evaluation committee to objectively compare the Statements of Qualifications, firms shall present their qualifications in the order listed below.

- **Introduction Letter.**

Provide a one page signed statement of qualifications with the name and address of the respondent, expressing interest and capability to perform the work.

- **Description of Firm.**

Provide the following:

- Firm Name, address, web address, telephone and fax numbers including main office as well as the local office that will manage the project (if any).
- Contact information of the individual who will be able to answer questions regarding this Statement of Qualifications.
- Firm's history, specific abilities, qualifications, area of expertise and length of time in business.
- Provide description of firm's planning techniques, design principles, project management skills and methodology to project monitoring.
- Disciplines offered in-house.
- Staffing information (number of engineers, inspectors, etc.)
- Provide the number and names of qualified bridge inspectors on staff.
- Provide the firm's knowledge, understanding and experience with public sector entities (list the entities).

- **Project Understanding.**

Provide a brief understanding of the project. Include any concerns regarding, site, schedules, etc.

- **Firm / Team Experience and Capabilities.**

Highlight your firm's specific abilities and experience in providing the required services related to this project. If your submittal includes affiliated firms, please identify and provide similar information for those firms as well.

- **Technical Approach.**

Describe how your firm will approach this contract and describe the tasks that will be accomplished to complete the work. If your methodology utilizes any specialized software or systems, please provide a description and summary of capabilities.

- **Key Personnel & Experience:**

Provide a simple organizational chart identifying the project lead and key members of the firm to be assigned to this project and provide resumes. Limit information to relevant experience and a maximum of one (1) page per person.

Describe the roles that each staff will be responsible for on this project. Of the staff to be assigned to this project, indicate if staff has attended:

- FHWA Bridge Inspector's Training Course
- Inspection of Fracture Critical Bridge Members Training Course
- Wisconsin Department of Transportation Element Training Course

Describe work to be performed outside of your firm (subcontractors). Include names, areas of expertise, qualifications and description of work to be performed by the subcontractor. Provide resumes for subcontractor staff to be assigned to this project.

- **Similar Work.**

Briefly describe recent and relevant projects that demonstrate your firm's experience in design and engineering of roads and bridges, storm water design and engineering or other closely related municipal projects. List no more than six (6) projects. (A relevant project is one which best exemplifies qualifications of public sector projects.) For each project referenced, provide the following:

- Name of Owner
- Project Name
- Project Location
- Project Description
- Brief Description of Firm's Involvement
- Total Project Cost
- Contact Name
- Address and Telephone number
- Firm's key Personnel Assigned to the Project
- Provide a statement acknowledging if the project was completed on time and within budget.

- **Present and Committed Work Load.**

Provide a list of present committed work load (major projects) for which your firm is currently under contract for along with scheduled completion dates.

- **Certificate of Compliance.**

Review, sign and include a completed Request for Taxpayer Identification Number (W-9) form as part of the submittal.

- **Fees**

Fees for these services will be negotiated with the selected firm after the interview process.

Although supplemental attachments may be included with your submittal, they should not be excessively long or in an elaborate format. Attachments beyond those sufficient to present a complete, comprehensive and effective response should not be included.

H. EVALUATION AND SELECTION

Firms to be short-listed will be selected based upon the apparent qualifications of the firm and the availability of its staff to complete the work in time to achieve the Town's goals. The Statement of Qualifications will be reviewed by an Evaluation Committee and scored on the following criteria:

- 0-20 pts Firm / Team Experience, Capabilities, Professional Qualifications. Performance History and Previous Municipal Experience
- 0-20 pts Technical Approach
- 0-40 pts Experience and Qualifications of Key Personnel and Project Team including Sub-Consultants (if any). Education and work experience of project team; training courses attended by assigned personnel.
- 0-10 pts Firm's Present and Committed Work Load
- 0-10 pts Other Considerations: Factors which include, but are not limited to, time of completion, competency and financial capacity of firm, ability to render satisfactory service and past performance.

It is the intent of the Town to contract with a single qualified firm (or team) possessing a high level of technical competence in the design and engineering disciplines to provide the services outlined in this RFQ, however, the Town reserves the right to split the services to multiple firms if it determined to be in the best interest of the Town.

The selection process will follow the Qualifications Based Selection (QBS) process and cost will not be a factor in rating responses. The firms deemed to be the most qualified will be short-listed and may be invited to participate in a final selection interview and/or asked to provide additional information.

Upon evaluation completion and interviews, the highest ranked firm may be selected to negotiate a contract for services. If an agreement cannot be reached, negotiations may continue with the next highest ranked firm, and so on, until an agreement is reached. Recommendation to award will be presented to the Buchanan Town Board which will make the final approval.

I. CONTRACTUAL REQUIREMENTS

A professional services contract will be negotiated with the successful firm. A sample copy of the Town of Buchanan's standard Professional Services Agreement is included in the attachments to this RFQ.

The contract term shall be for a period of three (3) years with the option to extend for three (3) additional one (1) year periods. Contract extension shall be under the same terms and conditions and by mutual consent of both parties.
