Wisconsin's Voter Public Access Site Contains Sample Ballot Information

Town of Buchanan, WI – Information for Buchanan residents who plan to vote in the April 7 Wisconsin Spring Election is available on the State's Voter Public Access website.

"We list the candidates who are on the ballot in the Statewide Voter Registration System," Clerk Gorall said. "If you want to see the choices you will have when you get to the polling place, you can check Voter Public Access."

"If the ballot has not yet been set – meaning the candidates are not decided – you have to wait a while until we can enter the information," Gorall said.

Local voters can view ballot information at <https://vpa.wi.gov>, and they also may check other information such as voter registration status, voter history, and polling place information. The Voter Public Access site is maintained by the Elections Division of the Wisconsin Government Accountability Board (G.A.B.).

The Clerk's Office is always happy to answer voter questions by telephone, too. If you don't have time to call us during the work day, and have access to the Internet, you can check voter information yourself at anytime.

The Voter Public Access site also has a section called "Voting Districts and Current Officeholders," which clerks may fill in to give voters more information about elected officials. Voters should check directly with the clerk's office if that section is blank.

Voters should remember that ballot information available on the Voter Public Access site changes from election to election, and sometimes no information is listed between elections.
